

The Designer Solid Wood Floor

" There is something so timeless and classic about Solidwood Floors. They have been used for centuries, for good reason ! "

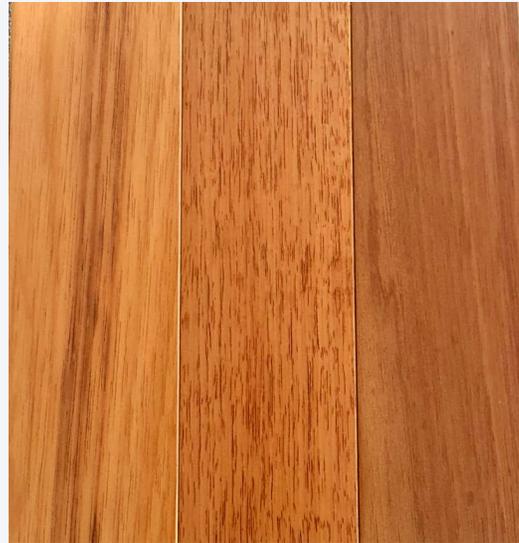

2022-23

TEAK NATURAL

All kinds of hardwood have always been prized by the Indian society. But when it comes to solid wood flooring of teakwood finish, the pride, respect and love rises to an altogether different high. Whether it's giving an upscale look to one's living room or giving that five-star touch to a luxury hotel's lobby, teakwood has always been the cynosure of all eyes.

And
Owners' pride*

Installation Patterns

WALNUT NATURAL

Solid Walnut flooring finish gives a rich and luxurious feel to the space. The deep dark brown colours can really help to transform any shape or style of room. The elegance of Walnut flooring speaks for itself. It gives a timeless and charismatic flooring that will last a lifetime if looked after and cared for. It adds the sophistication to the luxurious beauty.

Wood is universally beautiful to man. It is the most humanly intimate to all materials .

- **Source** South of South America

COLLECTION

walnut | ipe | teak | merbau

ABOUT

Moisture Content

Timberland is Kiln dried to a moisture content between 8-10%. This makes the wood more stable and less chances of warping.

Rot Resistance

Rated as moderately durable in decay resistance ,with mixed reports on its resistance to insect attacks.

Sustainability

This wood specie is not listed in the CITES Appendices or in the IUAN Red List of Threatened Species.

Solid wood VS Engineered wood.

Why go for cheap ply or multiple wood base floor, when you can buy exotic high quality solid wood floor at the same price.
